## Notice on the Organization of CSNE 2019

Enterprises and institutions specializing in satellite navigation and relevant industries, institutions for scientific research, universities, industrial parks and other relevant institutions:

The first CSNE was held in 2010 and formed an integral part of CSNC, with the two sessions being held at the same time. CSNE has been successfully held for 9 sessions in Beijing, Shanghai, Guangzhou, Wuhan, Nanjing, Xi'an, Changsha and Harbin, and it is now the largest, most influential, most authoritative and most professional exposition of the satellite navigation industry in the world.

The venue for each exposition covers more than 10,000 m<sup>2</sup>, and has received more than 100,000 visitors in total for the past nine years. 1,081 famous satellite navigation companies, universities and scientific research institutes (including those who participated more than once) from domestic and abroad have been given the opportunity to fully display their most advanced technologies and product lines on the platform of CSNE. Upstream, midstream and downstream enterprises of the industry will be able to communicate and cooperate with each other through the exposition, which makes it an import and wide acknowledged platform for the practitioners of

the industry to interpret the progress in technology and the trend of development and to exchange information. The conference is in fact an international platform for communication among the satellite navigation industry of China.

CSNE 2019 aims to become an exposition of the achievements of Chinese satellite navigation industry, promoting the deep integration of satellite navigation industry and geographic information industry, the internet, artificial intelligence, industrial information technology, thereby enhancing the transfer of the achievement of navigation technology and building a platform of service for the demonstration of the achievements and the promotion of application.

CSNE 2019 will be held at Guoce (Beijing) International Convention & Exhibition Center on 22<sup>nd</sup> – 25<sup>th</sup> May 2019. The area of the venue for exhibition is 15,000 m<sup>2</sup>, including Comprehensive Exhibition Area, Corporate and Research Institute Exhibition Area, Science Popularization Area and Interactional Experience Area. Several events for exchange and on-site events are also organized at the same time. Leaders of the support organizations, academicians and experts in satellite navigation field will attend the exposition. The plan of the use of venue for the exposition has now been confirmed, and the organizing committee has started to organize a series

of events to attract investment and participants. We are now sending you the plans for the attraction of investment and participants. We sincerely invite you to participate in the conference and share your valuable opinions on the development of satellite navigation, advancing the satellite navigation industry of China.

Welcome to Beijing in May 2019!

For detailed information about investment and participation, please visit our official website [www.beidou.org](http://www.beidou.org) and refer to the exhibition section.

Starting date of registration for investment and participation: 25<sup>th</sup> December 2018

Deadline of registration for investment and participation: 20<sup>th</sup> April 2019

## **Support Units:**

China Satellite Navigation Office

Department of High and New Technology Development and Industrialization, Ministry of Science and Technology

China National Space Administration, State Administration of Science, Technology and Industry for National Defense

Department of Electronic Information, Ministry of Industry and Information Technology, PRC

Department of Comprehensive Planning, Ministry of Transport, PRC

China National Administration of GNSS and Applications

Bureau of Major R&D Programs, Chinese Academy of Sciences

Bureau of International Cooperation, Chinese Academy of Engineering

China Aerospace Science and Technology Corporation

China Aerospace Science and Industry Corporation

China Electronics Technology Group Corporation

China North Industries Group Corporation

## **Undertakers:**

Beidou Union Technology Co., Ltd.

Beijing BDStar Navigation Co., Ltd

ZGITA

Beijing Shunyi Technology Innovation
